

The Iditarod

Baseball

Wuff! Wuff! Do you know about the Last Great Race in Alaska? You need 12-16 dogs to start the race. To cross the finish line you need at least 5 dogs. There can be up to 100 people mushing in the Iditarod. Anyone can be a musher it just takes a lot of training and work. I love the Iditarod because of the dogs. People do the Iditarod not because of money because of the challenge. You have to have good sportsmanship, for example, if a team needs help you have to help them. If you want to be a musher you have to have huskies and train them and love them.

Do you like a sport where you hit or catch something? Baseball was developed in the U.S.A. in the 1800's and was spread around cities and small towns across the country. In the late 1900's baseball was recognized as the national sport of the U.S.A. I like baseball because it's a simple easy game. Anyone can play, and all you need is space, other players, a baseball, a bat, and a catcher's mitt. In baseball you are not in nature, you are on a field or in a gym, and if you are playing on a team, you have to wait your turn.
