

Ice Skating

Iditarod

Whoosh! I slide by fast while on my ice skates. Ice Skating was brought to North America from Europe in the 1740's. Ice skating has 3 different basic forms: solo, figure skating or in pairs. When you race in ice skating it is called speed skating. Ice Skating is pretty cool, but you can get hurt if you fall on the ice.

Hike! Ham! The mushers have unique calls for their dogs: "hike" means to get the team moving, "ham" means to go left, and "gee" means to go right. The Iditarod requires years of training and practice. The Iditarod is really dangerous. The Iditarod is really unique let's see who won!

**THE IDITAROD
WON!!**
