

I now welcome you to the one and only, Dogs Built For Snow Kennel! My kennel is located in Willow, Alaska where the great race starts. The reason I named my kennel "Dogs Built For Snow" is because I like snow and the dogs love playing and running in the snow. Also because I really like the dogs, and they are awesome. I chose the logo because it reminds me of snow and a paw print. I also chose it because it looked cool and I liked the colors of the background. When I mush with my dogs, I feel awesome and free. Have a good day and happy trails!!!
