

All Hail the Returning Champions!

There are four returning champions running in this year's Iditarod. Learn a little about their careers from the table below:

Name:	Age:	Gender:	# of Wins	# of Races Entered:	Total Prize Money Won:
John Baker	55	M	1	22	\$602,653.78
Mitch Seavey	58	M	3	24	\$773,979.33
Jeff King	62	M	4	27	\$948,747.78
Martin Buser	60	M	4	34	\$815,717.89

For your homework you must find the mean, median, mode, and range of two sets of data. You may use a calculator to do your division and check your other work.

1. The first challenge is to find the mean, median, mode and range of the ages of the returning champions.

Median: _____

Mode: _____

Mean: _____

Range: _____

2. For your second challenge, you may choose which set of data you would like to work with. How much of a challenge are you up for tonight?!?!?!?!?

The data I'm using is: _____

Median: _____

Mode: _____

Mean: _____

Range: _____
