

Debski's Diner Lesson ideas....

Critical Thinking:

Look at the list and answer... I notice / I wonder

- Which items are you the most surprised at?
- Which items do you not know what they are?

Math:

- Use the number amounts and create a line graph.
- Look at the amounts needed and answer these questions:
  - Which item is she getting the least number?
  - Which item is she getting the most number?
- Look at the sizes and answer:
  - Which item weighs the least?
  - Which item weighs the most?
- Look at the items, pick 3 things that you would want to eat the most
  - Look at the number of items they are getting and add those 3 numbers together
  - Which item weighs the most and which item weighs the least, write the numbers from least to greatest.
- Count how many items are liquid?
- Write the numbers 1-10, look at the numbers of items she's getting, write the names of items she's getting for each number.
